EDUCATION

MOAT Academy — Full Stack Development Bootcamp (2026)

Relevant Coursework: Python, Flask, SQLAlchemy, MySQL, HTML, CSS, Bootstrap, Git & GitHub, REST APIs, Authentication, Database Design

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building and deploying web applications. Passionate about creating user-friendly digital solutions and solving real-world problems through technology. Quick to learn new tools and technologies, receptive to feedback and guidance, and able to work effectively both independently and as part of a team. Committed to continuous growth, collaboration, and delivering reliable and high-quality work.

SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Flask, SQLAlchemy, Bootstrap

Databases: MySQL

Tools & Platforms: Git, GitHub, Railway, VS Code, MySQL Workbench, XAMPP

Concepts: REST APIs, Authentication, CRUD Operations, Responsive Design, Database Modeling

EXPERIENCE

Full Stack Developer (Bootcamp Projects) — Remote (2026 – Present)

- Built and deployed full-stack web applications using Python, Flask, SQLAlchemy, and MySQL.
- Implemented user authentication, role-based access, favorites, messaging, and dashboard features.
- Integrated database migrations, form validation, and responsive UI components.
- Deployed applications to Railway and managed environment variables and production configuration.
- Used Git and GitHub for version control and project collaboration.

PROJECTS

KayHomes — Real Estate Platform (2026)

- Developed a property listing platform with search, filtering, favorites, and inquiry features.
- Created an admin dashboard for managing properties and users.
- Designed a responsive interface using Bootstrap.
- Connected the application to a MySQL database and deployed it on Railway.

Yan Zhen Peptides — E-commerce Website (2026)

- Built a multi-page product website with language support and customer review functionality.
- Implemented responsive layouts and improved user experience across mobile and desktop devices.
- Audited and fixed interface sections that did not respond correctly to selected languages.

Knotique — Fashion Store (2026)

- Developed product, Wishlist, and order-history pages.
- Fixed image-loading and responsive-layout issues.
- Improved overall UI consistency and navigation.

LEADERSHIP & ACTIVITIES

KayDevs — Founder & Developer (2026 – Present)

- Creating and deploying personal software projects and web solutions.
- Maintaining a public GitHub portfolio and technical learning roadmap.
